DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-15, drawn to a nonwoven fabric of carbon fibers with diameters ranging from 0.01 to 1 micron.

Group 2, claim(s) 16-19, drawn to a precursor for fuel cell electrodes.

Group 3, claim(s) 20-27, drawn to an electrode material.

Group 4, claim(s) 28-31, drawn to a composite material comprising a matrix and nonwoven fabric.

Group 5, claim(s) 32-34, drawn to a metal-carrying nonwoven fabric or metal-carrying pulverized material.

Group 6, claim(s) 35 and 36, drawn to a filter substrate.

Group 7, claim(s) 37-47, drawn to a method of producing a nonwoven fabric of carbon fibers.

2. The inventions listed as Groups 1-7 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the corresponding special technical feature, a nonwoven fabric comprising an aggregate of carbon fibers having a diameter of 0.01 to 1 micron does not make a contribution over the prior art. Chen et al. (US 6,495,258 B1) disclose a nonwoven network of carbon nanotubes (claim 1), and said nanotubes have a diameter ranging from 0.005 to 0.020 micron (col. 2, lines 1-13).

3. A telephone call was made to Joseph J. Ruch Jr. on 6/19/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
